### ADVANTAGES

WINDFLEX® 600 PU AL ducting is extremely flexible and due to the 100% ether-based polyurethane wall offers very good mechanical resistance. Extremely good abrasion resistance, flexibility and elasticity. Remarkable for its wide temperature range of use.

### CONNECTORS

Connectors with wire collars. Small diameters can be screwed into themselves. We recommend checking before assembly that the fittings cannot harm the inner wall.

### CHEMICAL RESISTANCE

See table pages 106 to 109 column C.
